GUIDE TO REFEREES

Papers should be assessed on the basis of their contribution to knowledge. Although the referee may not fully share then, The author's opinions should be allowed lo stand unless they show to be in error. Please point out the particularly good and weak aspects of the manuscript, and please include any comments that might improve the quality and presentation of the paper. Please consider the following specific questions and comments and suggestions for improvement on extra page if necessary:

1. Is the manuscript suitable for publication in Dipteron ? [yes/no]*
2. Is the contribution new and significant ? [yes/no]*
3. Is the title appropriate? [yes/no]*
4. Do the keywords and abstract clearly indicate the content of the paper ? [yes/no]*
5. Is the presentation clear and findings and inferences clear …. See comments [yes/no]*
6. Is discussion limited to interpretation and significance of the findings ? [yes/no]*
7. Are the illustrations and tables adequate, clear and appropriate ? [yes/no]*
8. Are all cited references important and listed ? [yes/no]*

To preserve anonymity, please sign one copy only. Return the signed copy and one other copy to the corresponding Editor. Save the third copy for your records. ***Pdf-files are required !.***
